

TEACHER'S TIP

“How do I use Build a Zoo?”

First, pick a book at your student's level. Second, agree on a goal and a reward. Now you're ready!

For practiced readers, we like to pair Kipling's *Just So Stories* with Build A Zoo. Every chapter is about a different animal. As our reader finishes a chapter, he or she picks out an animal charm.

For our 1st-3rd grade readers, we like to pair *Magic Tree House* books with Build A Zoo. When the reader finishes a chapter or a certain number of pages, he or she picks out an animal charm.

You can build a zoo and read a book too!
